SUMMARY

Laravel / PHP Developer with 4+ years of experience building and maintaining large-scale, workflow-driven web applications for e-governance and enterprise clients. Experienced across the full project lifecycle — from financial fund-flow systems and hospital management platforms to AI-integrated knowledge and intelligence tools built with Laravel, Python, and FastAPI. Skilled in RESTful API design, role-based access control, dashboard/reporting systems, and third-party integrations. Actively expanding into AI-assisted and LLM-integrated development workflows. Committed to writing clean, maintainable, and scalable code.

WORK EXPERIENCE

Software Developer – In22 Labs (Unwind Learning Labs Pvt Ltd) **Jan 2026 – Present**
Chennai, Tamil Nadu

- Contributing to e-governance web solutions serving citizens across the country, working across financial management, health/hospital management, and AI-integrated intelligence platforms.
- Key projects delivered in this role are detailed in the Key Projects section below.

Web Developer – Divinfosys **Aug 2021 – Nov 2025**
Madurai, Tamil Nadu

- Built and maintained full-stack web applications using Laravel and React, delivering scalable features across multiple client projects.
- Led a development team, coordinating task allocation and delivery timelines to consistently meet project deadlines.
- Designed and implemented RESTful APIs, enabling integration across internal tools and third-party platforms.
- Collaborated with cross-functional teams (design, QA, and product) to translate requirements into working software.
- Maintained scalable, version-controlled codebases using Git, following consistent branching and review practices.

Retail Snacks Distribution Partner – Self-employed **May 2017 – Aug 2021**

- Founded and operated a retail snacks distribution business spanning four districts in Tamil Nadu.
- Managed vendor relationships, inventory planning, and logistics end-to-end.
- Scaled operations through strong customer service and regional networking, prior to transitioning into web development.

SKILLS

Languages	PHP, Python, JavaScript, HTML, CSS
Frameworks	Laravel, FastAPI, React (beginner), Bootstrap, jQuery, Alpine.js, Tailwind CSS
Databases	MySQL
Tools	Git, GitHub, Webpack, NPM, Visual Studio Code
Other	REST APIs, RAG & LLM Integration, Role-Based Access Control, Responsive Web Design, Payment Gateway Integration (Razorpay, PayPal)

KEY PROJECTS – IN22 LABS

NHM Finance / SNA SPARSH – Fund Flow Management System
Laravel, PHP, MySQL

- Built a consolidated fund flow management system covering budget allocation, reallocation, and withdrawal workflows.
- Implemented Treasury, HOA, Agency, and District-wise financial reporting and MIS dashboards.
- Developed ROP Approval and Mother Sanction workflows, along with beneficiary payment processing.
- Built user and role management, bulk upload, and data validation modules to support financial workflows.

NHM-HMIS – Hospital / Health Management Information System

- Developed institution management, institution user portal, and role-based access control modules.

- Built inspection and observation management, including inspection history and status workflows.
- Redesigned the inspection History Details table into a full-width, responsive, and compact UI with proper column distribution, status badges, sticky header, and preserved pagination, search, and export functionality.
- Fixed duplicate history record creation and resolved 403 Forbidden errors affecting uploaded inspection attachment images, correcting attachment storage and access handling.
- Built institution-wise dashboards, admin configuration, and master data modules.

TN-FD Knowledge Intelligence Platform

Laravel, Python, FastAPI

- Built an AI chat and document/knowledge search platform using Retrieval-Augmented Generation (RAG) and LLM integration.
- Implemented SQL/database intelligence features enabling natural-language querying over structured data.
- Integrated Laravel front-end/API layer with a Python FastAPI service for AI processing.

Tender Intelligence / Agent AI

Laravel, Python, FastAPI

- Built a tender search and data processing platform with AI-assisted tender analysis.
- Developed scraping workflows and scraping status management for automated tender data collection.
- Implemented AI/agent-based processing for database-driven tender intelligence.

NHM-TN PMIS

Laravel, PHP, MySQL

- Developed project/program management workflow modules with user and role management.
- Built reporting and dashboard modules to support program monitoring.

NHM Nippon

Laravel, PHP, MySQL

- Built administrative and user management modules for workflow-based applications.
- Developed reporting features to support administrative oversight.

CERTIFICATIONS

AI Foundations – OpenAI Academy — Aug 2026

Claude 101 – Anthropic — 2026

EDUCATION

2013 – 2017	B.Tech in Information Technology, **SCSVMV University**, Kanchipuram	GPA: 7.4
2012	Class 12th, **State Board**	70%
2010	Class 10th, **State Board**	90.8%

AWARDS & RECOGNITION

- **Good Job Award** – Amazon Seller Account Handling (May 2023)
- **Good Developer Recognition** – Technical Integration Support (May 2024)
